ALL LIVES HAVE EQUAL VALUE
we are impatient optimists working to reduce inequity

The topic of lobbying has been addressed in earlier pieces in the series, but let's show just how big it is. The truth is, one can't honestly discuss the vaccine push in Canada (or elsewhere), without getting into the influence peddling behind the scenes.

This is by no means everything. This is just the tip of iceberg. Still, it's necessary for the public to see, in order to understand what's going on.

Bill Gates Jr., is the face behind the vaccine industry today. He is a well known proponent for population reduction. He is also the son of Bill Gates Sr., former head of Planned Parenthood.

The companies listed below are lobbying the Federal Government (and Provinces too), to push the for vaccine research. Why? In part because The Gates Foundation Trust owns stock in several of these organizations. The Gates Foundation — a separate entity, but not really — spends money on these groups as well. In short, pharma bucks help push the agenda.

And what is the result of this?

1. Gates Foundation Tax Returns

Link to search IRS charity tax records:
https://apps.irs.gov/app/eos/

Let's clarify here: there are actually 2 separate entities. The Foundation is the group that distributes money to various organizations and institutions. The Foundation Trust, however, is concerned primarily about asset management.

BILL & MELINDA GATES FOUNDATION
EIN: 56-2618866
gates.foundation.taxes.2016
gates.foundation.taxes.2017
gates.foundation.taxes.2018
gates.foundation.taxes.2019

BILL & MELINDA GATES FOUNDATION TRUST
EIN: 91-1663695
gates.foundation.trust.taxes.2018

What does the Gates Foundation Trust Own?

Company	Type Of Stock	Shares	Total Value
Eli Lilly	Corp Bonds	–	$952,265
Gilead Sciences	Common	21,250	$1,329,188
Gilead Sciences	Corp Bonds	–	$3,297,777
Laobaixing Pharma	Common	831,829	$5,719,831
Merck	Common	27,200	$2,078,352
Novartis	Common	70,330	$5,995,662
Pfizer	Common	39,500	$1,724,175
Roche	Common	37,881	$9,353,059
Sichuan Kelun	Common	2,818,448	8,480,098
Sinopharm	Common	394,080	$1,655,978

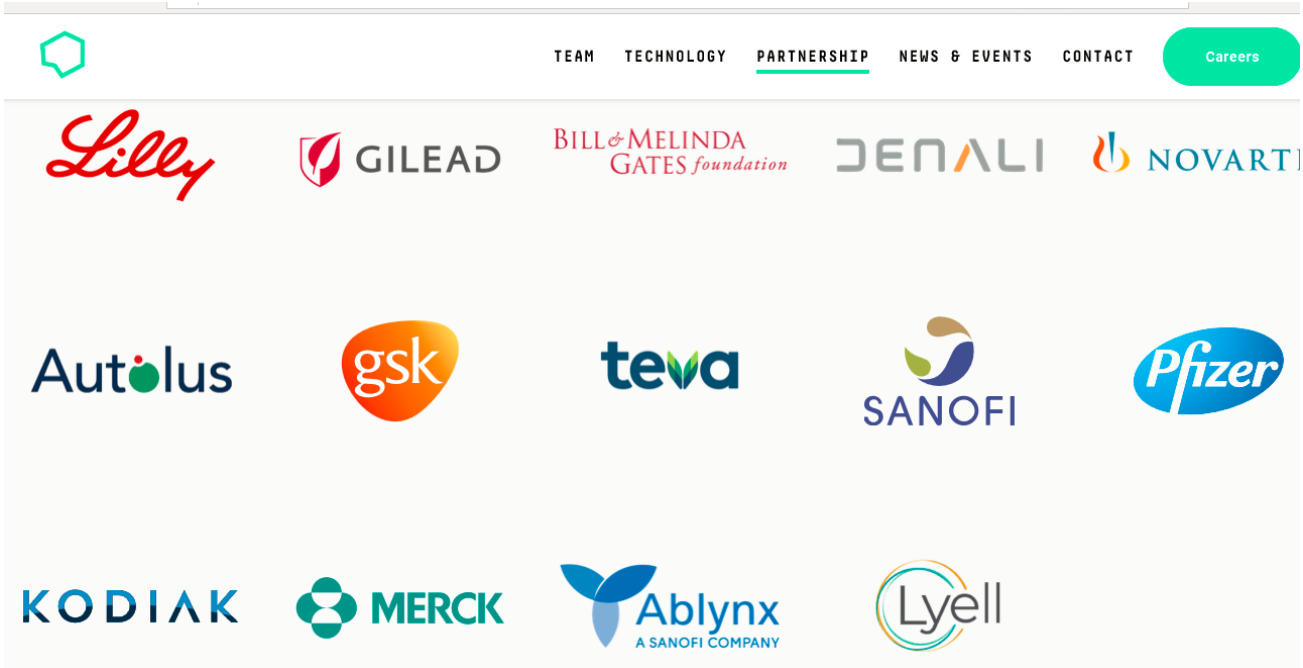
Tasly Pharma	Common	8,114,941	$22,693,515
Teva Fin BV	Corp Bonds	–	$819,555
Teva Fin IV	Corp Bonds	–	$9,465
Teva Pharma NE	Corp Bonds	–	$1,106,435

Why does Bill Gates promote the health and well being of these companies? It could (and probably does) have to do with that fact that he is a stockholder in them. Plainly put, he is part owner of these pharmaceutical companies.

Of course, this is only a tiny portion of the total assets within the trust. There are stocks and bonds in a wide array of industries and companies.

Interesting side note: There is almost $11 million of stock in SNC Lavalin owned by the Trust, $1.25M in Goldman Sachs, and about $14M in Blackrock's various groups.

2. Lobbying And Pharmaceutical Money



- Ablynx (a Sanofi company)
- Autolus

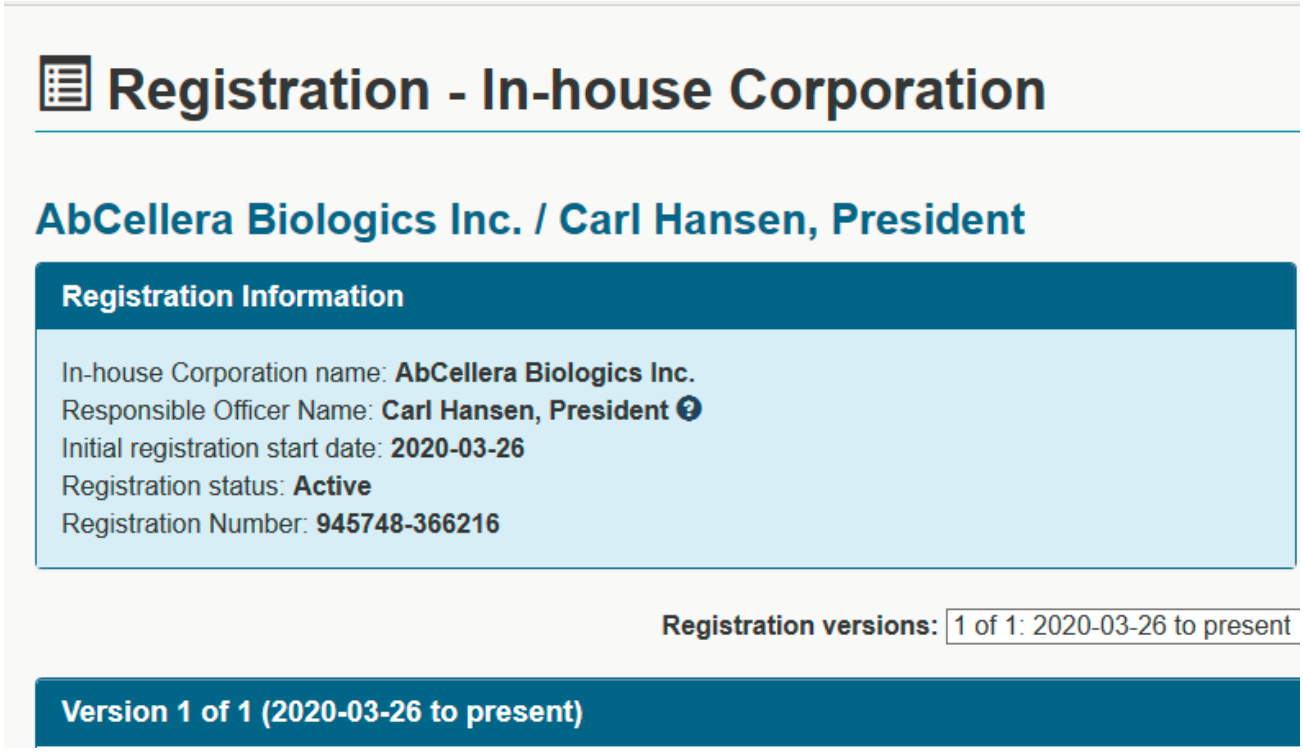
- Denali Therapeutics
- Eli Lilly and Company
- Gilead Sciences
- GlaxoSmithKline
- Global Health Foundation (Gates Foundation)
- Kodiak Sciences
- Lyell
- Merck (MSD)
- Novartis Pharmaceuticals
- Pfizer Inc.
- Sanofi Pasteur
- Teva Pharmaceutical Industries, Ltd.

It was addressed in Part 14, the AbCellera grant, how many of the firm's partners have been involved with the Gates Foundation, and some of the lobbying behind the scenes.

In addition to those partners in the above list, consider the following, as they also have direct or indirect ties to the Bill & Melinda Gates Foundation:

- AbCellera itself
- Apotex Pharmaceuticals
- Bayer
- GAVI, the Global Vaccine Alliance
- VIDO-InterVac

3. AbCellera Biologics



Registration - In-house Corporation

AbCellera Biologics Inc. / Carl Hansen, President

Registration Information

In-house Corporation name: **AbCellera Biologics Inc.**
Responsible Officer Name: **Carl Hansen, President**
Initial registration start date: **2020-03-26**
Registration status: **Active**
Registration Number: **945748-366216**

Registration versions: 1 of 1: 2020-03-26 to present

Version 1 of 1 (2020-03-26 to present)

As of March 2020, AbCellera is registered with the Lobbying Commissioner's Office. There are no communication reports — yet — but AbCellera is set up and ready to go and start lobbying. Also worth noting is that AbCellera received $289,116.00 from Western Economic Diversification Canada last year, and expects to receive more this year.

HOW WE WORK

GRANT

BACK

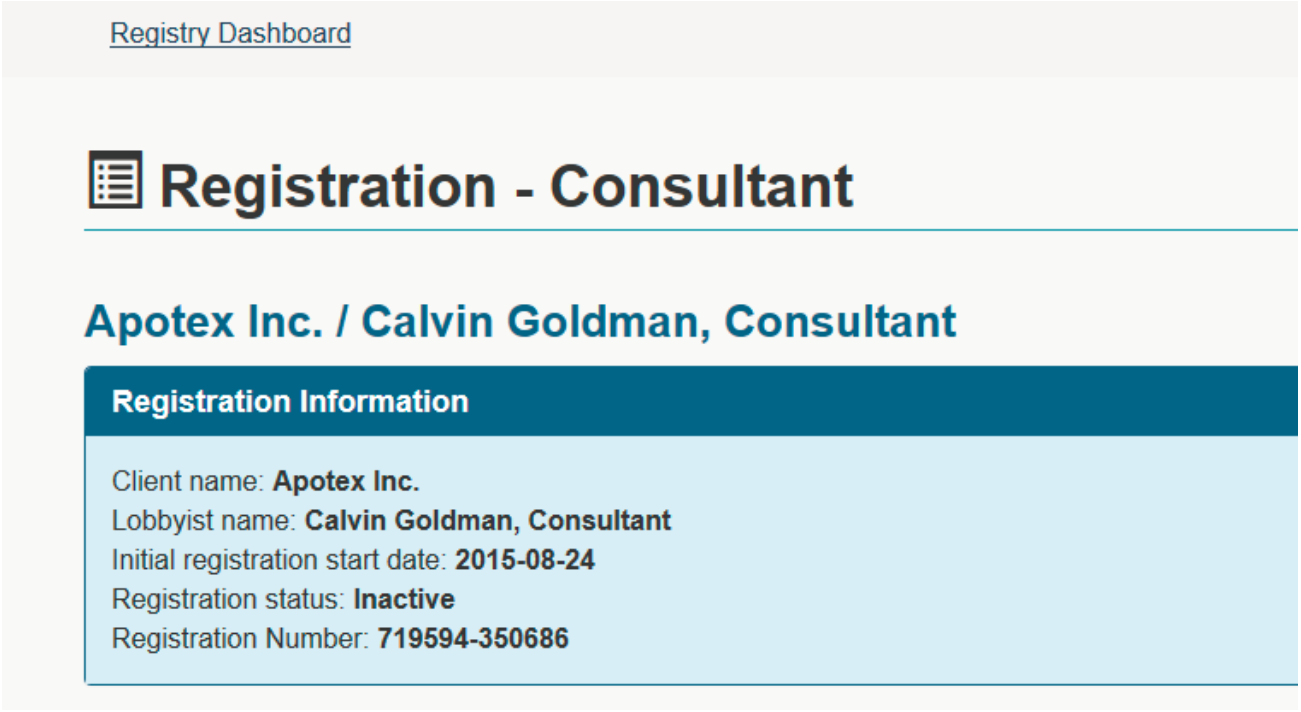
AbCellera Biologics Inc.

Date: November 2016
Purpose: to generate antibody reagents that enable the development of rapid and low-cost point-of-care tests for tuberculosis infection
Amount: $645,000
Term: 11
Topic: Support Innovative Technology Solutions
Program: Global Health
Grantee Location: Vancouver, British Columbia

In November 2016, the Bill & Melinda Gates Foundation gave AbCellera $645,000 to help

develop antibodies to treat the tuberculosis infection. So when AbCellera is getting the current grant from the Canadian Government, is it really the Gates Foundation that is getting the money?

4. Apotex Pharmaceuticals



Apotex was involved in a scandal in 2017, where it's alleged that there was illegal lobbying in 2015 of then-Candidate Justin Trudeau. Apotex owners Barry and Honey Sherman were murdered in 2017, around the time that M-132 was introduced in the Federal Parliament. While Apotex lobbying on the Federal sphere may have stopped, it is a very different story Provincially.

Pamela Jeffery	08/16/2000	Apotex Inc.	The Jeffery Group Ltd.	Consultant Lobbyist
Kristina Filmer	03/27/2001	Apotex Inc.	The Jeffery Group Ltd.	Consultant Lobbyist

Apotex has a manufacturing base in Ontario, so it's no surprise that they would try to influence the Government there. This will be the topic of a separate article, but the Apotex owners (Honey and Barry Sherman), were murdered in 2017. This was while there was an ethics investigation for illegal lobbying, and around the time that M-132 started up. M-132 was a motion for Canada to fund pharma research and distribute cheap drugs to Canadians — AND THE WORLD.

5. Bayer

Previous Versions

Registration versions: 1 of 1: 2019-08-19 to

This has been addressed in earlier parts of the series, but the Gates funded GAVI (Global Alliance for Vaccines and Immunizations) has been lobbying the Federal Government since 2018. There are 20 communications reports on file.

This is probably the most well known link in the chain. The Bill and Melinda Gates Foundation helped found GAVI, the Global Vaccine Alliance in 1999. There was an initial grant of $750 million, and the Gates Foundation made regular contributions to GAVI, about $4 billion in total. The foundation essentially runs the show.

The Global Vaccine Alliance, as the name suggests, is an organization devoted to pushing vaccinations on the public all across the world. Bill Gates has long been a proponent of mass vaccinations.

Statement from the Bill & Melinda Gates Foundation about today's Coronavirus Global Response Summit

SEATTLE, May 4, 2020 – Earlier today at the Coronavirus Global Response Summit, the Bill & Melinda Gates Foundation announced a commitment of $125 million towards the international collective effort to develop and equitably distribute COVID-19 diagnostics, therapies, and vaccines. This includes $50 million of new funding to Gavi, the Vaccine Alliance and $75 million of previously announced funding for therapeutics and diagnostics. More information about the summit is available at global-response.europa.eu.

Bill & Melinda Gates Foundation
206-709-3400
media@gatesfoundation.org
follow @gatesfoundation

Commenting on the summit and the foundation's commitment, Melinda Gates, co-chair of the Bill & Melinda Gates Foundation, said:

Just 3 weeks ago, May 4, 2020, the Gates foundation released a press report for another $50 million worth of funding going to GAVI.

7. Gilead Sciences Canada

Registration - In-house Corporation

Gilead Sciences Canada / Melissa Koomey, V.P. and General

Foundation Announces Richard Henriques as New Chief Financial Officer | Bill & Melinda Gates Foundation

Bill & Melinda Gates Foundation
Phone: +1.206.709.3400
Email: media@gatesfoundation.org

SEATTLE -- The Bill & Melinda Gates Foundation today announced that Richard Henriques has been appointed chief financial officer, effective April 19, 2010. He will be based in Seattle, Washington at the foundation's headquarters.

Bill & Melinda Gates Foundation
206-709-3400
media@gatesfoundation.org
follow @gatesfoundation

As CFO, Henriques will oversee the foundation's financial functions, including accounting, financial planning and analysis, and impact planning and improvement. In addition to serving as a strategic partner to the CEO and working with the presidents of the Global Health, Global Development, and United States programs, he will also oversee the foundation's program-related investments.

SEATTLE — The Bill & Melinda Gates Foundation today announced that Richard Henriques has been appointed chief financial officer, effective April 19, 2010. He will be based in Seattle, Washington at the foundation's headquarters.

Henriques will join the foundation from Merck, where he has served as senior vice president of finance and corporate controller since 2006. In this position, he focused on operations, governance, strategic planning, performance measurement, and cost management within the pharmaceutical and pharmacy benefit management industries.

Interesting side note: in 2010, the Gates Foundation scooped Richard Henriques from Merck, where he was a Senior VP.

Year	Company	Amount
2013	Merck KGAA	$1,142,794

According to the most recent tax return, the Bill & Melinda Gates Foundation Trust owns over $2 million worth of common stock in Merck. Presumably they'd like it to do well.

Press Release: Inactivated Polio Vaccines Broadly Available for the World's Children in the Drive toward Polio Eradication

Sanofi Pasteur

February 28, 2014

Sanofi Pasteur, the vaccines division of Sanofi (EURONEXT: SAN and NYSE: SNY), announced today its further commitment to the international community's efforts to complete polio eradication. UNICEF, the organization that procures the vaccine to meet global needs, announced it will purchase significant quantities of Inactivated Polio Vaccine (IPV) from Sanofi Pasteur and make it available based on country needs and vaccination plans. To achieve the goal of polio eradication by 2018, the World Health Organization (WHO) recommends that by end 2015, all children receive routinely at least one dose of IPV in over 120 countries that solely use Oral Polio Vaccine.

In order to support rapid and widespread adoption of IPV, Sanofi Pasteur – the world's largest producer of IPV – and the Bill & Melinda Gates Foundation have developed a joint price support mechanism, including a financial contribution from both organizations.

International Vaccine Institute Receives $40 Million Grant from the Bill & Melinda Gates Foundation

Funds to help develop new improved vaccine

Dr. Richard Mahoney (English language)
Phone: 82.2.872.2801

Dr. Yong Ae Kim (Korean language)
Phone: 82.2.872.2801

SEOUL, South Korea -- The International Vaccine Institute announced today they have received a $40 million from the Bill & Melinda Gates Foundation. The funds will be used for the development and introduction of new and improved vaccines against three diseases B cholera, dysentery, and typhoid B scourges for the worlds most impoverished.

Bill & Melinda Gates Foundation
206-709-3400
media@gatesfoundation.org
follow @gatesfoundation

This is a momentous event for the poorest of the world. These diseases kill over 1.8 million children and adults each year. The generosity of Bill and Melinda Gates will surely lead to the saving of many of these lives, said Professor Barry Bloom, dean of the Harvard School of Public Health and Chairman of the Institute Board of Trustees.

The International Vaccine Institute (IVI) is a ***not-for-profit International Organization established in 1997 as an initiative by the United Nations Development Programme (UNDP)***. It is among the few organizations in the world dedicated to vaccines and vaccination for global health.

> IVI is involved in all aspects of bringing a vaccine to reality: discover new technologies to make new vaccines or improve existing ones; ***develop promising vaccine candidates for licensure and World Health Organization (WHO) prequalification by transferring the technology to manufacturers and partnering with them on clinical development***; deliver licensed vaccines in low-income countries by generating scientific data on the need for vaccines and the impact of vaccination for decision makers; building capacity in vaccinology in developing countries through technical assistance and training to promote self-sufficiency and sustainability in vaccines and vaccination; and building partnerships in Asia and globally for vaccines and global health.

This has long been a partner with InterVac (University of Saskatchewan). It is funded by the United Nations. However, it does get some hefty grants, from the Bill and Melinda Gates Foundation.

> SEATTLE, March 25, 2020 – Today, a ***consortium of life sciences companies announced an important collaboration to accelerate the development, manufacture, and delivery of vaccines, diagnostics, and treatments for COVID-19***.

The life sciences industry brings a range of assets, resources, and expertise needed to identify effective and scalable solutions to the pandemic, which is affecting billions worldwide. The impact on health systems, economies, and livelihoods is profound, and an effective response requires an unprecedented collaboration across governments, academia, the private sector, and the philanthropic community.

"This is an encouraging start in a critical area, ***because if any of these compounds are shown to be effective against COVID-19, it dramatically accelerates the path to product approval and scale up," said Suzman. "While each of the consortium's partners will also be pursuing independent efforts with national governments and others***, we are optimistic that this unprecedented collaboration will provide a platform for a fundamentally different kind of partnership to help address this global health emergency."

Companies participating in the collaboration include ***Bayer, BD, bioMérieux, Boehringer Ingelheim, Bristol-Myers Squibb, Eisai, Eli Lilly, Gilead, GSK, Johnson & Johnson, Merck (known as MSD outside the U.S. and Canada), Merck KGaA, Novartis, Pfizer, and Sanofi.***

About the Bill & Melinda Gates Foundation
Guided by the belief that every life has equal value, the Bill & Melinda Gates Foundation works to help all people lead healthy, productive lives. In developing countries, it focuses on improving people's health and giving them the chance to lift themselves out of hunger and extreme poverty. In the United States, it seeks to ensure that all people—especially those with the fewest resources—have access to the opportunities they need to succeed in school and life. Based in Seattle, Washington, the foundation is led by CEO Mark Suzman and Co-chair William H. Gates Sr., under the direction of Bill and Melinda Gates and Warren Buffett.

Announced in March 2020, this is a press release unveiling a major collaboration between the Gates Foundation, and a number of major pharmaceutical companies. Who's on the list?

- Bayer
- BD

- bioMérieux
- Boehringer Ingelheim
- Bristol-Myers Squibb
- Eisai
- Eli Lilly
- Gilead Sciences
- GlaxoSmithKline (GSK)
- Johnson & Johnson
- Merck
- Novartis
- Pfizer
- Sanofi Pasteur

An astute person will recognize several of these names as partners from the $175.6 million AbCellera grant awarded just a month ago. From the previous sections on lobbying the Federal Government, these same parties are trying to influence government policy. It's clear that it really is Gates' partners who are doing a lot of the legwork.

Also, several of these names are companies that the Bill & Melinda Gates Foundation Trust owns stock in, and that the Foundation (again, 2 separate entities) spends money on.

16. Other Honourable Mentions

Form 990PF Part XV Line 3 - Grants and Contributions Paid During the Year or Approved for Future Payment

Recipient Name and address (home or business)	If recipient is an individual, show any relationship to any foundation manager or substantial contributor	Foundation status of recipient	Purpose of grant or contribution	Amount
a *Paid during the year*				
AGA KHAN FOUNDATION 1-3 AVENUE DE LA PAIX GENEVA 1202 SZ		PC EQUIVALENCY DETE	AGRICULTURAL DEVELOPMENT	1,397,161
AGA KHAN UNIVERSITY STADIUM ROAD PO BOX 3500 KARACHI 74800 PK		PC EQUIVALENCY DETE	PNEUMONIA	462,479
AGA KHAN UNIVERSITY STADIUM ROAD PO BOX 3500 KARACHI 74800 PK		PC EQUIVALENCY DETE	POLIO	3,501,312
AGA KHAN UNIVERSITY STADIUM ROAD PO BOX 3500 KARACHI 74800 PK		PC EQUIVALENCY DETE	ENTERIC AND DIARRHEAL DISEASES, MATERNAL, NEONATAL & CHILD HEALTH, PNEUMONIA	3,683,442
AGA KHAN UNIVERSITY STADIUM ROAD PO BOX 3500 KARACHI 74800 PK		PC EQUIVALENCY DETE	POLIO	1,735,152

Yes, Gates donates to the Aga Khan Foundation.

Year	Company	Amount
2016	Pirbright Inst.	$44,598
2016	Pirbright Inst.	$385,144
2016	Pirbright Inst.	$525,826
2017	Pirbright Inst.	$100,000
2018	Pirbright Inst.	$311,878

For a walk down memory lane: Pirbright became infamous a while back when it was learned they had patented a new group of coronaviruses and were funded by Gates.

Year	Company	Amount
2014	Microchip Biotech	$7,717,271

There are other firms whose work could conceivably be used to advance the ID2020 agenda. This is just one of them.

17. Gates Is Behind Pharma Lobbying

While it obviously isn't exclusively the Bill & Melinda Gates Foundation, they do play a very prominent role in pushing the vaccine agenda across the world. It should come as no surprise, given the amount of money they have tied up in this industry.

The Bill & Melinda Gates Foundation Trust owns stocks and bonds in many pharmaceutical companies. The Gates Foundation (yes, the Foundation and trust are separate), gives/spends money on those same pharma businesses — and others. There's no altruism behind it, but rather a business decision.

It also would surprise no one, given the Gates Family has long had a love of eugenics, or population reduction. So one has to wonder what else will be slipped into these vaccines, when they are finally available.

gates.foundation.trust.taxes.2018

Take a look at the documents for yourself. The full list can be found here, just search for the Bill & Melinda Gates Foundation. Those 2 organizations will pop up.

The above sections are only a tiny piece of what is really going on. There are many, MANY companies and grants that are in the tax returns, but not listed in the article. For practical purposes, it can't be done in a single article, or even a few. The returns run to hundreds of pages each.
